This 1% Justification will be publicly available on the [South Dakota Department of Education Alternate Assessment website](#). For districts with fewer than 10 participants, district names will be redacted to ensure student confidentiality. 1% Justifications should not include graphs or any personally identifying student information (names, gender, age, grade). If copies of the *Eligibility Form* or *Evidence Worksheet* are submitted, a justification narrative is still needed (see below).

**Provide justification(s) for why your district exceeded the 1.0 percent alternate assessment participation. Include the district use of the alternate assessment criteria, data review processes, and reason(s) why your district had a high participation rate.**
